

4-Conductor, Chassis-Mount Terminal Strips, 862 Series – Description and Handling –

CAGE CLAMP®S

Conductor termination

Four conductors per pole for solid and fine-stranded conductors

Marking

Marking by direct, one-side printing and/or marker strips

Testing

Testing with test plug 2 mm Ø.

Ground contact (PE contact)

Makes an automatic contact to the mounting plate. The varnish coating is penetrated automatically.

Commoning

Commoning with comb-style jumper bar

Cost-effective features:

The 862 Series chassis-mount terminal strips were developed specifically to minimize wiring costs, while accommodating requirements for easy mounting, multiple connection points, marking and handling:

- The 862 Series equipped with CAGE CLAMP®S connects up to four conductors sized 0.5 mm² to 4 mm² (AWG 20 - 12). Due to multiple connection points per pole, different conductor sizes can be used within the same terminal block position.
- CAGE CLAMP®S termination technology allows solid conductors, fine-stranded conductors with ferrules or ultrasonically bonded conductors from 0.5 mm² to 4 mm² (AWG 20 - 12) to be connected by simply pushing the conductor into contact. (Length of bonded wire end min. 10 mm/0.39 in).

- Convenient automatic grounding contact available as an option.
- Snap-in mounting feet for fast assembly.
- Push-buttons for easy handling with an operating tool or by hand.
- Built-in test points simplify testing with test plug 2 mm Ø.
- Flexible marking options with standard marking (pre-marked), marker strip or custom marked for large quantity orders.

CAGE CLAMP®S clamps the following copper conductors:*

solid

stranded

fine-stranded, also with tinned single strands

fine-stranded, tip-bonded

fine-stranded, with ferrule ① (gastight crimped)

fine-stranded, with pin terminal (gastight crimped)

* For aluminum conductors, see notes in Section 14.

① When using ferrules, the max. conductor cross section accommodated is one size smaller than max. rating of terminal block.

Dimensions in mm

Dimensions in mm for ground contact and snap-in mounting foot 5.2 mm Ø.

Dimensions in mm for chassis-mount terminal strips

4-Conductor, Chassis-Mount Terminal Strips, 3-Pole, 4 mm², 862 Series

0.5 - 4 mm ² 500 V/6 kV/3 ① I _N 32 A	AWG 20 - 12 300 V, 20 A ② 300 V, 20 A ③	0.5 - 4 mm ² 500 V/6 kV/3 ① I _N 32 A	AWG 20 - 12 300 V, 20 A ② 300 V, 20 A ③
 10 - 11 mm / 0.41 in ②		 10 - 11 mm / 0.41 in ②	

- ① 500 V = rated voltage
6 kV = rated surge voltage
3 = pollution degree
(also see Section 14)
- ② Strip length, see packaging or instructions.
- ③ Suitable for Ex e II applications
440 V, 28 A
(also see Section 14)
