

# Types of Assembly

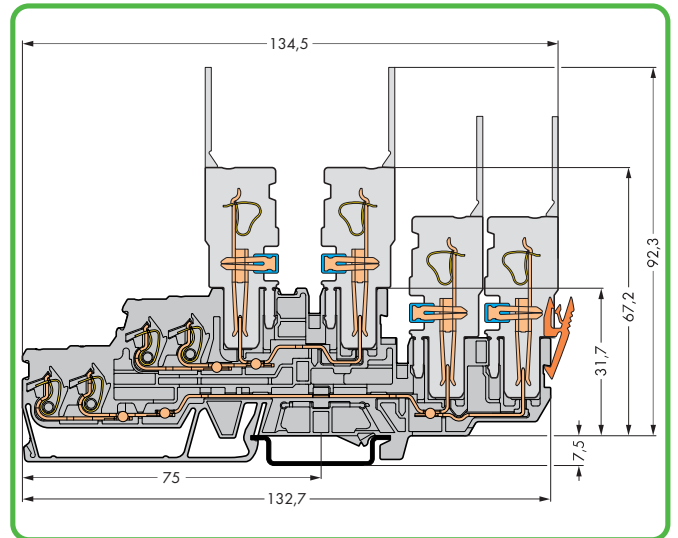

## 2-Conductor/2-Pin Double-Deck Carrier Terminal Blocks and 1-Conductor Female Plugs

1-conductor female plug  
Double-deck carrier terminal blocks can be commoned via 870 Series push-in type jumper bars.

**Notice:**

Female plugs must be opposing on the upper deck (see above).  
Angled 1-conductor female plugs and 2-conductor female plugs cannot be used.

# 7 X-COM®-SYSTEM Male Headers and Male Connectors, 769 Series

Male connector with CAGE CLAMP®. 1-conductor female plug, straight.

Male connector with CAGE CLAMP® connection and mounting feet. 1-conductor female plug, straight.

Male connector with CAGE CLAMP® connection and fixing flanges. 1-conductor female plug, straight.

## Male connector with snap-in flanges

Snap-in mounting without tools.

## Operating tool

Conductor termination - side-entry wiring (example shows a female plug).

## Strain relief plates

Can be snapped in male connector and female plug.

## Operating tool

Conductor termination with operating tool (example shows a male connector).

Can also be used with male connectors with snap-in mounting feet.

## Marking

Female connector with CAGE CLAMP® with miniature WSB quick marking system

**CAGE CLAMP®** clamps the following copper conductors:\*

solid

stranded

fine-stranded, also with tinned single strands

\* For aluminum conductors, see notes in Section 14.

## - Description and Handling -

### Coding

Coding a female plug – removal of coding finger(s). Do not break off the first and last latch position coding fingers!

### Locking lever

Snapping in/removal of locking lever.

### Commoning

Commoning 1-conductor female plugs with miniature adjacent jumpers.

**Note:** Connectors used according to the regulations shall not be connected or disconnected when live or under load.

### Plugging a female connector

Male header and 1-conductor female plug with lateral locking levers.

Male headers with solder pins for printed circuit boards.

### Pluggable PCB connection

Connection to a relay module inside the switchgear cabinet.

Application example showing a relay module: Male headers with straight solder pins and 1-conductor female plugs.

Male headers with solder pins: Integration of PCB sub-assemblies into the system wiring.
